

ALbee™ Flame

Rental Free Cylinders for
Oxygen & Acetylene

ALbee™ Flame

ALbee™ Flame is a brand and concept created by Air Liquide to supply rental free cylinders to the market place.

Cylinder Exchange Programme

Simply purchase an ALbee™ Flame cylinder from any approved Reseller. Then when it needs replacing just return your empty cylinder to any approved ALbee™ Reseller in the UK and exchange it by purchasing a refill cylinder. It's that easy ... no more rental and no more transaction charges.

Never Purchase a Regulator Again!

Every ALbee™ Flame cylinder is fitted with a fully integrated MiniTOP which is fully maintained on a fair wear and tear basis by Air Liquide. When an empty cylinder is returned, the MiniTOP is thoroughly checked, serviced and any worn parts replaced so you know that your ALbee™ Flame cylinder is ready for use every time.

Benefits of ALbee™ Flame

Saves You Money

- No more rental bills
- No more regulators to buy
- No regulator maintenance
- No wastage – On/Off lever avoids gas leaks

Saves You Time

- Easy On/Off lever
- Simple flow adjustor
- Faster set up

Safer

- Shock absorbing guard protects the regulator
- On/Off lever allows for a fast cut off
- Clear On/Off positions

Fully Portable

- Ergonomic cap – allows for easy carrying
- ALbee™ Flame cylinders are very compact
- Lighter and can be carried anywhere
- Can be secured on-site
